PERSONAL PROFILE

I focused on building responsive web interfaces with clean structure and layout. I turn simple ideas into functional designs, creating web pages that are easy to use and navigate. My work centers on maintaining consistent layouts, improving usability, and ensuring designs adapt well across different screen sizes. I pay close attention to spacing, responsiveness, and overall user flow to produce clean and reliable interfaces.

SCHOOL HISTORY

UNIVERSITY OF SAN JOSE RECOLETOS

BACHELOR OF INFORMATION TECHNOLOGY: 2018 - 2024

UNIVERSITY OF CEBU - LAPU - LAPU AND MANDAUE

TECH - VOC: 2016 - 2018

SKILLS

- PHP
- Javascript
- HTML
- CSS
- GitHub
- SQL

PERSONAL PROJECTS

SHOEHUB

- A website for a footwear brand, showcasing products and promotions.
- Structured content to improve readability and visual flow across different screen sizes.
- Organized sections and elements to guide users through the page more effectively.

SHOP

- A product-focused web page displaying items in a structured and easy-to-scan layout.
- Organized product sections to improve clarity and make browsing more straightforward.
- Designed the interface to present information clearly while keeping the layout simple and user-friendly.

PERSONAL PORTFOLIO WEBSITE

- Built a personal portfolio to present projects, skills, and contact information in one place.
- Structured sections to guide visitors through content clearly and highlight key work.
- Focused on creating a simple and consistent interface that adapts well across different screen sizes.
